

# What's in a Name (Authority Record)?

A Presentation by Ian Fairclough  
for the VLAPAF Conference  
Williamsburg, Virginia  
May 1, 2016

# Some Things About MARC Codes

- This presentation is not a "how to catalog" class!
- But anyone in a library might someday be required to "read" a record.
- MARC codes can help with reading.
- It's thanks (in part) to the coding that your online system displays the record the way it does.

# Tags

- Three-digit codes at the left of the display of a MARC field
- Example: 100
- MARC tag for a personal name Authorized Access Point (AAP) - formerly "heading"
- **100** 1 Heilbron, Rose, †d 1914-2005

# Indicators

- Zero, one or two digits, to the right of the tag, that "indicate" something about the field.
- Example: 1001 (which might be displayed as: 100 1)
- MARC indicator for field 100, personal name
- Indicating that the name is displayed in "surname, forename" format.
- MARC indicator for a personal name AAP:
- 100 **1** Heilbron, Rose, †d 1914-2005

# Subfields

Each subfield is prefaced by a two-character subfield code consisting of:

- The subfield delimiter (displayed as † \$ ¢ etc.)
- An alphanumeric character

Example: 1001 \$d MARC subfield code for date information

100 1 Heilbron, Rose, †d 1914-2005

# How Can I Find Out about MARC Codes?

Information is publicly available via the Library of Congress web site (<http://www.loc.gov>)

- Click on "Especially for Librarians" and select "MARC 21 Documentation"
- Or for authority data, go directly to:  
<https://www.loc.gov/marc/authority/>
- And for bibliographic data:  
<https://www.loc.gov/marc/bibliographic/>

# Dame Rose Heilbron DBE QC

# Biography by Rose's daughter Hilary

# Rose Heilbron processing from Westminster Abbey to Parliament in October 1950

# Authorized Access Point (formerly “Heading”)

100 1 Heilbron, Rose, †d 1914-2005

- This AAP is used in the bibliographic record in field 600.
- AAPs are always tagged 1XX in authority records (“X” stands for a digit)
- AAPs can be tagged 1XX, 6XX, 7XX or 8XX in bibliographic records

# Variant Access Point (formerly “See Reference”)

400 1 Heilbron, Rosie, †d 1914-2005

- VAPs are always tagged 4XX in authority records
- VAPs should not be present in bibliographic records
- Some library systems will automatically change a VAP to the corresponding AAP

# How do we know about Rose?

# What else do we know about Dame Rose?

670 Wikipedia, Dec. 17, 2012: ¶b (Dame Rose Heilbron DBE QC ... her career included many 'firsts' for a woman - she was the first woman to win a scholarship to Gray's Inn, the first woman to be appointed King's Counsel in England, the first to lead in a murder case, the first woman Recorder, the first woman judge to sit at the Old Bailey and the first woman Treasurer of Gray's Inn)

# Some other features of Name Authority Records

- Fields 046 and 37X contain “parsed” data
- You can interpret the data with information from the MARC21 Format for Authority Data
- These fields are optional
- They will not be found in all NARs
- Created in anticipation of RDA Resource Description and Access
- Not exclusively associated with RDA

# Wikipedia Biography

**Eleanor Hibbert** (1 September 1906 – 19 January 1993) was an English author who combined imagination with facts to bring history alive through novels of fiction and [romance](#). She was a prolific writer who published several books a year in different literary genres, each [genre](#) under a different [pen name](#):

# Wikipedia Biography (cont.)

- [Jean Plaidy](#) for fictionalized history of European royalty
- [Victoria Holt](#) for [gothic romances](#)
- [Philippa Carr](#) for a multi-generational [family saga](#)
- light romances, crime novels, murder mysteries and thrillers under the names [Eleanor Burford](#), [Elbur Ford](#), [Kathleen Kellow](#), [Anna Percival](#), and [Ellalice Tate](#).

# Multiple Bibliographic Identities

When an author writes using one or more pseudonyms—

How can we tell?

Do we use “see” references (now called Variant Access Points)?

Or do we use individual headings (Authorized Access Points) for each name?

# What You Might Expect in a Name Authority Record

- 100 1      Hibbert, Eleanor, †d 1906-1993
- 400 1      Plaidy, Jean, †d 1906-1993
- 400 1      Carr, Philippa, †d 1906-1993
- 400 1      Holt, Victoria, †d 1906-1993
- 400 1      Tate, Ellalice, †d 1906-1993
- 400 1      Kellow, Kathleen, †d 1906-1993

# What Actually Is

- 100 1 Hibbert, Eleanor, †d 1906-1993
- 100 1 Plaidy, Jean, †d 1906-1993
- 100 1 Carr, Philippa, †d 1906-1993
- 100 1 Holt, Victoria, †d 1906-1993
- 100 1 Tate, Ellalice, †d 1906-1993
- 100 1 Kellow, Kathleen, †d 1906-1993

# Multiple Bibliographic Identities

- Only one authorized access point (AAP) can be in a name authority record (NAR)
- Each “identity” has its own AAP
- Therefore, each identity requires its own NAR
- Related NARs are connected using field 500
- In cases of two or more identities, field 663 is used to explain the situation to the catalog user

## QuickSearch: What Am I Searching?

### What Am I Searching?

**QuickSearch** allows you to search hundreds of millions of items simultaneously, including:

- **Mason Collections**
- The books, e-books and media we've always had in our catalog
- Mason's digital collections in [MARS](#) and [LUNA](#)
- Mason's Electronic Dissertations and Theses
- **Mason Collections and More** (includes all the above and adds...)
- Research databases like ERIC, MEDLINE, ARTstor and others
- E-Journal collections like JSTOR and Science Direct
- Legal, governmental and archival materials

#### Using QuickSearch

**QuickSearch** retrieves items that satisfy your search terms from the collections of Mason's libraries, from open-access scholarly repositories. You may also expand your search results to include items where in using the "Expand My Results" option on the search results page. For *more in-depth research*, you'll also use the [Portal](#) to search content that isn't necessarily included within **QuickSearch**.

You can access items held by other institutions via our [Interlibrary Loan Service](#), or in-person visits to Consortium member libraries.
